Mallory Court Hotel Choose Cratos Time Recording Solution

The Cratos Time Recording Software solution has been chosen by Mallory Court Hotel. A Touch Screen Based / Card Login time recording system links to Mallory's existing EPOS and Property Management Systems also provided by Cratos Hospitality Services Ltd.

Using a magnetic swipe card or touch screen keypad on a wall mounted Touch Screen, employees will clock in and out at the beginning and end of their shifts. The time recordings can be then viewed and amended by the manager and updated to produce various labour reports.

"Because Mallory Court are using our EPOS system, real time Sales VS Labour reports can be produced showing managers when they are over / under staffed." said Robert B Stuart, CEO of Cratos.
