Pinewood Hotel Choose Cratos as a Total Solution for their New Build Hotel.

Pinewood Hotel chooses the Cratos Property Management, EPOS, Inventory, and Time Recording Solutions for their new build hotel. The fully integrated system will provide Pinewood Hotel accurate and reliable revenue capture along with comprehensive management reporting.

The system will operate in a new state of the art 48 room hotel due to open in the late spring. The Hotel will also have conference facilities ranging from board room to marquees for 400 people. Also the Hotel has a smart casual dining area in the distinctive dining room with a wood fired oven.

"We needed to know that by spending less on the Cratos Solution that we will not lose any functionality that more expensive systems offer", said Ian Shelton of Bespoke Hotels.

"The system we will provide to Pinewood Hotel has all the functionality of the more expensive systems and because we are a smaller company than some of our competitors, we can offer a more personal service. We pride ourselves in having a one to one relationship with our customers and work closely with them in the continuing development of our products" said Alan Stuart, UK sales Director.

"Because we run our own Bars and Restaurants we are able to relate closely to the requirements of our customers. This shows through in our software solutions and the product almost sales itself" said Robert B Stuart, CEO.

About Cratos
