Boringdon Hall Hotel Choose the Cratos PMS and EPOS Solutions

Boringdon Hall have chosen the Cratos PMS (Property Management System) and EPOS solutions for their Reception, Bars and Fine Dining Restaurant.

The PMS will link to the Phone System so that phone calls from rooms will automatically charge to the guest's bill. Another interface will also charge internet usage to guest's bills.

Boringdon Hall had only recently converted from IBS to Guestmaster. Because of the lack of support and frustrations with the Guestmaster product, an alternative supplier was sought. With the experience of 2 systems, the front-desk staff were able to identify the strengths and weaknesses of both of them. They then compared these to the Cratos Solution and were extremely impressed with the functionality and simplicity of the system.

"We will supply Boringdon Hall Hotel our internet interface module. This will provide visitors to the Boringdon Hall web-site to make real time on-line bookings" said Alan Stuart, UK Sales Director.

Data has already been re-keyed from the IBS to the Guestmaster system, so for ease of transition to the new Cratos Solution, Cratos will provide a Data Conversion service.

About Boringdon Hall

Boringdon Hall Hotel is set in extensive gardens and grounds covering some seven acres and is close to the edge of Dartmoor, just five miles from Plymouth.

Every corner of this spectacular Grade I listed Elizabethan manor house is steeped in history and past visitors have included Sir Walter Raleigh, Sir Francis Drake and Queen Elizabeth I.
