

## **Cratos Launches PMS "Lite" Version.**

Cratos Hospitality Services has just announced the launch of its latest package, the PMS "Lite" Version. Using elements from their existing Property Management System, they have designed a management system tailor made for small to medium hotels, inns, guesthouses and lodges.

"We are very excited about the PMS "Lite" because there is a vast market which exists that is being largely, for want of a better word, ignored and not developed technologically", said Michele Dalporto, Marketing Executive at Cratos Hospitality. "The majority of objections to opting for an automated system are the costs involved and the worry about a new system which is time-consuming to learn, and we know that we have addressed both these issues."

By applying only the relevant and necessary applications in the "Lite" Version, Cratos has ensured that a costs effective, yet still integrated, system is now available for hotels with up to 20 rooms. Because of its user friendly simplicity, training can be completed in half a day, leaving the customer feeling comfortable with all aspects of the package. There is also the added benefit of the support service offered by Cratos; these are provided in 3 levels and are chosen by the customer to ensure support for them at their busiest times.

For a free demonstration / consultation, contact Cratos today at 0870 873 8880 or e-mail [info@cratoshospitality.co.uk](mailto:info@cratoshospitality.co.uk) today!
