

Town and Country Open their new Apres Bar in Litchfield with the Cratos EPOS solution.

Town and Country who use the Cratos Solution in their other Apres and Mechu stores in Birmingham and Stafford have installed the solution into a new Apres Bar in Litchfield.

The system was supplied with the Javelin Viper 2.5's for which Cratos have the European distribution rights.

The EPOS systems installed across the Apres and Mechu Bars/Restaurants automatically downloads a sales file to a ftp server so that inventory and sales can be reported centrally using a web bases software package. The integration to the 3rd party Inventory system is seamless to end-user and figures are available to the management staff the following day.

"The success of Apres and Mechu themes are a testament to Town and Country and the Management Information that the Cratos Solution provides them" said Alan Stuart, UK sales Director of Cratos. "Town and Country are expanding at a staggering rate and we are proud to be able to provide a robust and reliable system for them." he added.

For more information about the Cratos EPOS / Hospitality solution call Alan Stuart on 01884 254666 or email info@cratoshospitality.co.uk
